Investigator Code of Conduct

- Investigators will conduct investigations in an unbiased, diligent and professional manner.

- Investigators will seek to gather all material facts and to report those facts accurately and completely.

- Investigators will not permit bias, prejudice, or preconceived opinions to interfere with an investigation.

- Investigators will not participate in any investigation in which they have an actual conflict of interest or in which there is an appearance of their having such a conflict.

- Investigators will conduct investigations with honesty and integrity. Lying or use of deceit during interviews is prohibited.

- Investigators will gather information and evidence in a manner that respects the relevant privacy rights and protects the integrity of that evidence. This includes using public records and safeguarding confidential information.
